Water & Eco Systems

Borehole Supply:

We source our water from an on-site borehole, which may occasionally show slight discoloration. To ensure a consistently refreshing experience, we recommend bringing your own drinking water or purchasing bottled water from our shop.

Hot Water “Donkey” System:

Showers are heated via our eco-conscious donkey system. Simply let reception know your preferred time, and we'll have water ready—no geysers are used, minimizing energy consumption.

Solar-Powered Comfort:

All air-conditioning runs on solar energy, keeping your unit cool and carbon-light.

Frequently Asked Questions

Q – What to do when I want warm water to take a shower?

A – Let the office know what time you want to take a shower, evening and morning time upon arrival.

Q – What do I do when I want to leave early on my check out date?

A – Let the office know what time so they can arrange for the gate to be open, the day before departure.

Q – Must I have my own towel for swimming purposes?

A – Yes please, do not use the towels from the rooms.

Q – Can I order light meals from the restaurant and ask to be delivered to my room?

A – Yes you may ask for your order to be taken to the room, but only to dine outside.

Q – Are your dogs dangerous?

A – We love dogs. Rex, Rosie and Nala are our pets and also our faithful guards at night. They are loving, playful and love attention. We have gates everywhere to keep them away from our guests, but they know how to jump over with such ease. Please let us know if you are afraid of them.
